

The Hospital + Healthsystem
Association of Pennsylvania

2024 Federal Legislative Advocacy Agenda

Stability

- **Financial Stability**
Advocate for fair Medicare and Medicaid reimbursement that covers the cost of providing care, reduces administrative burden, and allows for investment in physical infrastructure
- **Rural and Underserved**
Support financial reinforcements for hospitals serving rural and underserved communities and protect the 340B Drug Pricing Program
- **Payor Accountability**
Hold health plans accountable to the promise of coverage and access by addressing prior authorization abuse, network inadequacy, and other barriers to care

Support

- **Workforce**
Advance policies to protect the health care workforce, ease immediate staffing shortages and advance mid- and long-range solutions to grow the health care workforce
- **Behavioral Health Capacity**
Update and invest in the nation's behavioral health system by enforcing parity laws, expanding access to services, and supporting the health care workforce, which continues to deal with burnout, violence, shortages, and other challenges
- **Equity**
Pursue strategies and support public policies aimed at eliminating racial and ethnic health inequities, and support a diverse health care workforce

Transformation

- **Care Innovation**
Continue to apply pandemic-era learning to streamline, modernize, and innovate health care delivery
- **Value**
Advance models of care that strengthen quality while lowering costs
